QuickStart EN
July 2025

Card 1 - Name Badge

[Link to Code](#)

woensdag 30 juli 2025 22:37

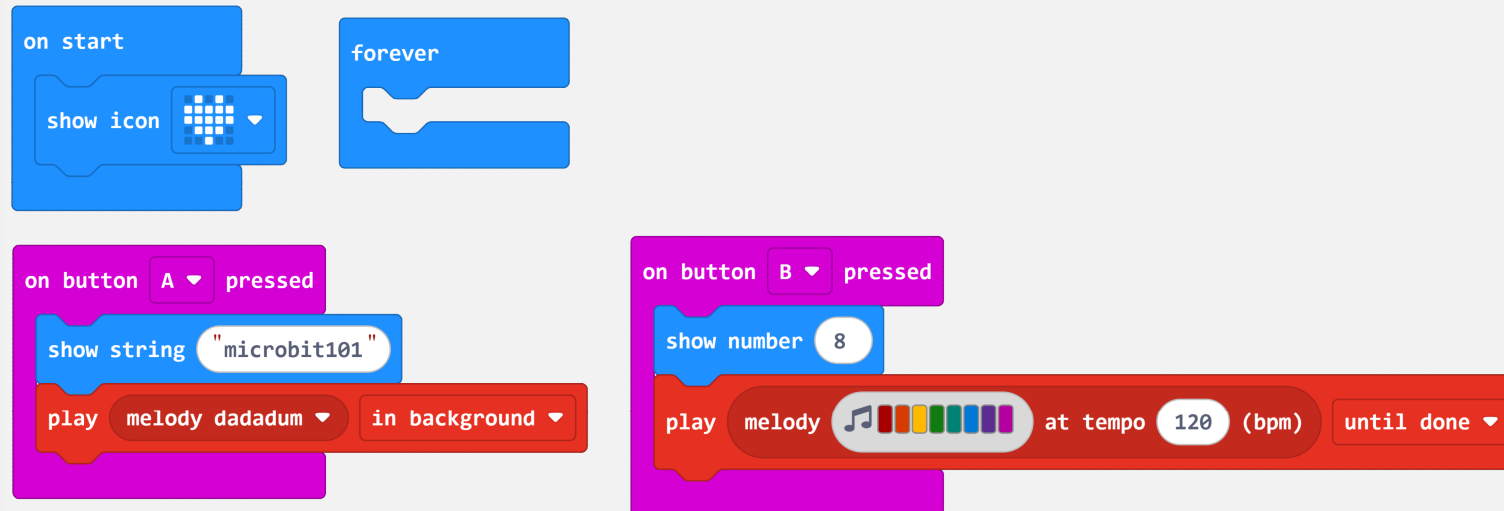

WHAT?

You will take the first steps coding the micro:bit. You will put your name and sounds by pressing button A and B.

www.makecode.com

[Downloading Code to micro:bit](#)

EXPLAIN CODE

- ☐ Drag from **Basic**; show **icon** into on **Start**
- ☐ Drag from **Input**; on **Button A pressed**
- ☐ Drag from **Basic**; **show string** into button A pressed
- ☐ Drag from **Music**; **play** under show string
- ☐ Drag from **Input**; on **Button B pressed**
- ☐ Drag from **Basic**; show **number** into button B pressed
- ☐ Drag from **Music**; play **melody** under show string

TIPS

- ☐ All the commands fit together as jigsaw puzzles
- ☐ You can delete a piece code with delete, right mouse

EXTRA

- ☐ Change the name
- ☐ Change the music
- ☐ Choice another icon
- ☐ Try button AB

July 2025

Card 2 - Song

[Link to Code](#)

woensdag 30 juli 2025 22:37

WHAT?

You will make a little song, and see how you can use the loop. Or you can make the Harry Potter song.

www.makecode.com

EXPLAIN CODE

- ☐ Delete on **start** and **forever** block
- ☐ Drag from **Input**; on **shake**
- ☐ Drag from **Loops**; **repeat** 4 times (change to 2 times)
- ☐ Drag from **Music**; **play tone**
- ☐ **Right mouse**; **copy** play tone, change to middle D etc
- ☐ Drag from **Input**; on button **A pressed**
- ☐ Drag from **Music**; **play tone** and make [the harry potter song](#)

TIPS

- ☐ **Right mouse**, you can copy a block
- ☐ Click on the **micro:bit logo**, you start a **new** project

EXTRA

- ☐ Make your own music piece on Button AB
- ☐ What happens when you don't use the rest?
- ☐

[Link to this online OneNote](#)

Card 3 - (Own) Animation

[Link to Code](#)

woensdag 30 juli 2025 22:37

WHAT?

You will make your own animation (ticking hart) and add sounds. You make your own animation with the block show leds.

www.makecode.com

EXPLAIN CODE

- ☐ Drag from **Input**; on button **A** pressed
- ☐ Drag from **Loops**; repeat 4 times
- ☐ Drag from **Basic**; show icon (choose hart)
- ☐ Drag from **Music**; Play (tone Middel 1/2 beat)
- ☐ **Copy** the last 2 items (right mouse click)
- ☐ Change the **hart** for a **small hart**

TIPS

- ☐ 50 ms is 0,05 seconds.
- ☐ [Calculation site from milliseconds to seconds](#)

EXTRA

- ☐ Make your own animation with the show leds block.
- ☐ Add an extra block pause with onlly 50 ms.
- ☐ Drag play giggle from the Music blocks under the repeat
- ☐ You can also make rain, or a rocket
- ☐ You can use more show leds.

Card 4 - Morse Code

[Link to Code](#)

woensdag 30 juli 2025 22:37

EXPLAIN CODE

- ☐ Drag from **Input**; on button **A pressed**
- ☐ Drag from **Music**; **Play** (tone Middel C 1 beat)
- ☐ **Copy** the block **button A pressed** (right mouse)
- ☐ **Paste** this, change A into B
- ☐ **Change** 1 beat to **1/2 beat**
- ☐ Drag from **Input**; on button **A pressed**, change to **AB**
- ☐ Drag from **Loop**, **repeat** 4 times, change to 3
- ☐ Drag from **Music**; **Play** tone Middel C, change beat to 1/2
- ☐ Drag from **Basic**; **pause**
- ☐ **Copy** play tone; **paste** this under the loop. Change 1/2 to **1 beat**

TIPS

- ☐ You can look for a command in the search above Basic
- ☐ A list of [the international Morse Code](#)
- ☐ Did you know that the start of Beethoven number 5 start with 3 times short and 1 time long. That is V for victory. In the second World War, this music piece was forbidden to be played by the Nazi's.

EXTRA

- ☐ Send you own secret code in morse code to each other
- ☐ Put a word morse under the shake input

WHAT?

You will make morse code with the micro:bit. So you can send morse code to each other.

www.makecode.com

July 2025

Card 5 - Touch Sensor (V2)

[Link to Code](#)

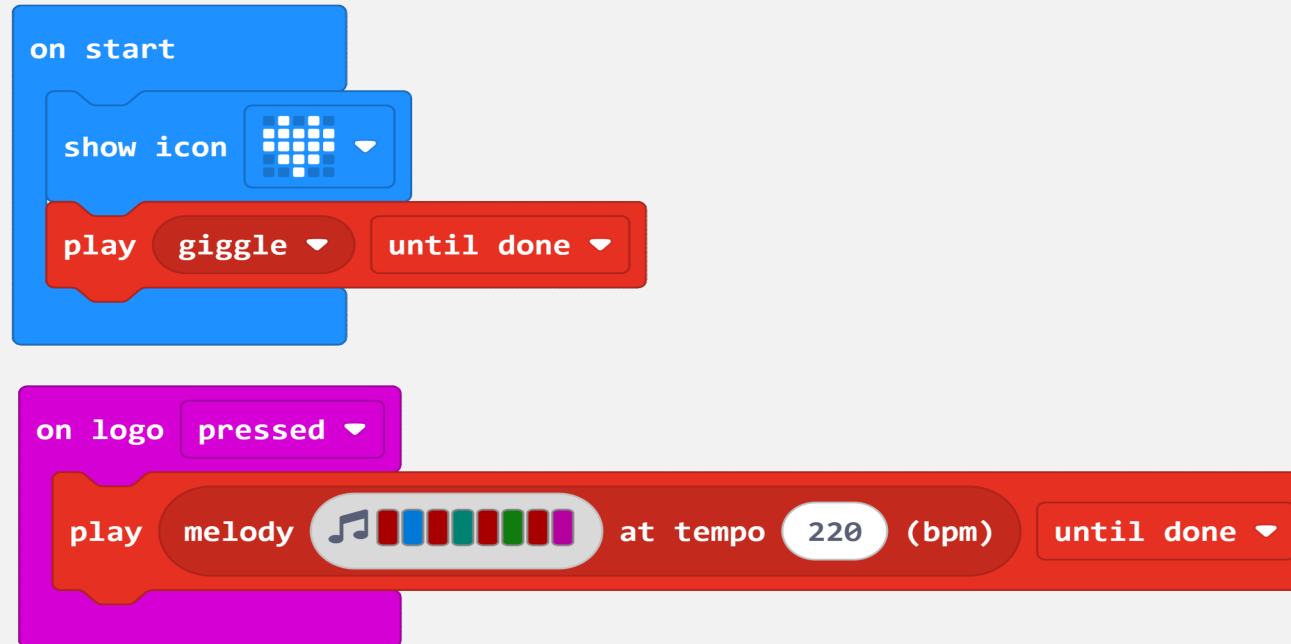

woensdag 30 juli 2025 22:37

WHAT?

You will now use the touch sensor on the micro:bit and make music with the melody editor.

www.makecode.com

EXPLAIN CODE

- ☐ Drag from **Basic**; show icon and pick an icon
- ☐ Drag from **Music**; **play giggle** (all the way down to V2 (version 2 micro:bit))
- ☐ Drag from **Input**; on button **A pressed**
- ☐ Drag from **Music**; **Play melody**, and make your own melody
- ☐ Play around with the tempo bpm (beats per minute)

TIPS

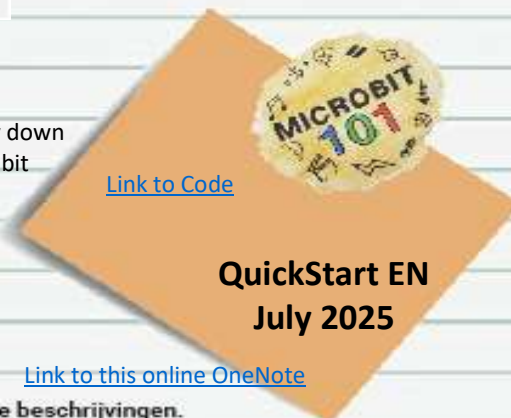

- ☐ The special blocks for Version 2 micro:bit are all the way down
- ☐ If you use V2 sounds, error 927 will show on your micro:bit
- ☐ Sometimes you have to make your finger a little wet

EXTRA

- ☐ Change the sounds
- ☐ Can you change until done, that the sounds is there the whole time?
- ☐ With beats per minute you can change the tempo of the music

microbit101 : Een doos met materialen om alle 101 projecten om te maken en een online omgeving met alle beschrijvingen.

[Link to this online OneNote](#)

Card 6 - Disco Lights (V2)

[Link naar de Code](#)

woensdag 30 juli 2025 22:37

WHAT?

You will now use the sound level from the micro:bit. That is a new sensor on the V2.

www.makecode.com

A small extra LED will turn on next to the logo, that is the sound sensor from the micro:bit.

EXPLAIN CODE

- ☐ Drag from **Basic**; **forever** block
- ☐ Drag from **Led**; **plot bar** into the **forever** block
- ☐ Drag from **Input**; sound level (down V2 sensor) into the 0 of plot bar
- ☐ Change the 0 from up to into 100
- ☐ Scream very loud towards the micro:bit...
- ☐ Put on a youtube song

TIPS

- ☐ You can see a small LED extra on next to the logo, that is the sound sensor
- ☐ As it is sometimes loud in a classroom, easier to use 100
- ☐ Put on a youtube song, and see the LED's on the micro:bit dance

EXTRA

- ☐ Change the sound level into light level, shine light on your micro:bit
- ☐ Change the sound level into temperature, blow to the micro:bit

microbit101 : Een doos met materialen om alle 101 projecten om te maken en een online omgeving met alle beschrijvingen.

July 2025

Card 7 - Dice

woensdag 30 juli 2025 22:37

[Link naar de Code](#)

WHAT?

You will make a dice with the micro:bit with sound.

www.makecode.com

EXPLAIN CODE

- ☐ Drag from **Input**; on **shake** block
- ☐ Drag from **Variable**; make a variable **dice**
- ☐ Drag from **Variables**; set **dice** to 0 in the shake block
- ☐ Drag from **Math**; pick random 1 to 10 into set dice
- ☐ Change the 0 to 10 to **1 to 6**
- ☐ Drag from **Loops**; repeat 4 times
- ☐ Drag from **Variables**; **dice** into the 4
- ☐ Drag from **Music**; play tone
- ☐ Drag from **Basic**; show number, change the 0 into **dice**
- ☐ Drag from **Basic**; pause 100

TIPS

- ☐ A variable are for instance: colours, ages, countries etc.
- ☐ If you use a variable, it is easy to code you program
- ☐ In a game score or time is a variable

EXTRA

- ☐ You can chance the tone
- ☐ Make a dice with 13 sides
- ☐ Change the pause

microbit101 : Een doos met materialen om alle 101 projecten om te maken en een online omgeving met alle beschrijvingen.
copyright: Peter Heldens & Pauline Maas.

[Link to this online OneNote](#)

Card 8 - Fortune Teller

[Link naar de Code](#)

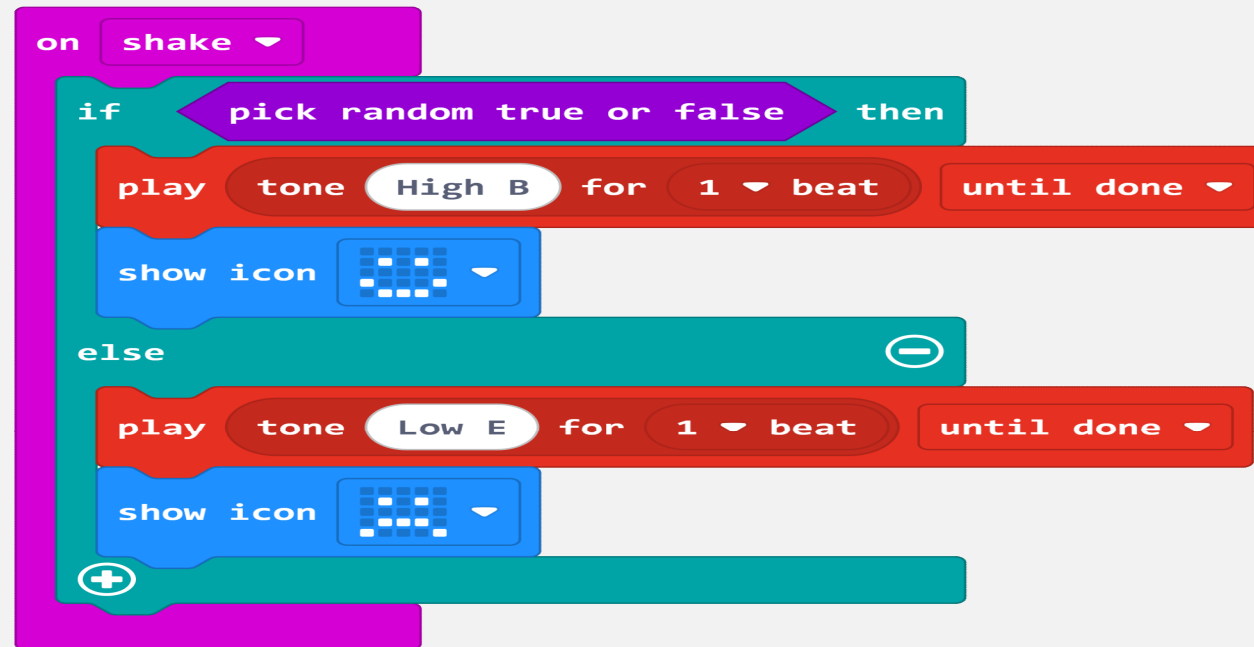

woensdag 30 juli 2025 22:37

WHAT?

You are going to make a fortuneteller. You can ask a question and if you shake the micro:bit he will give you the answer.

www.makecode.com

EXPLAIN CODE

- ☐ Drag from **Input**; on **shake** block
- ☐ Drag from **Logic**; if true then else in the shake block
- ☐ Drag from **Math**; **pick random** true of false into **true** field
- ☐ Drag from **Music**; **play** tone and pick a **high** tone
- ☐ Drag from **Basic**; **show** icon and pick a **happy** face
- ☐ **Copy** play tone; **paste** it in the **else** part, **change** the tone in a **low** tone
- ☐ **Copy** show icon, **paste** this under the low tone, **change** into **sad** face

TIPS

- ☐ The if then else block you use often. Walk until you see a wal.
- ☐ When you don't have not lives anymore, you are dead etc.

EXTRA

- ☐ You can chance the show icon into an animation
- ☐ Change the play tone into a play a happy or sad melody

microbit101 : Een doos met materialen om alle 101 projecten om te maken en een online omgeving met alle beschrijvingen.
copyright: Peter Heldens & Pauline Maas.

[Link to this online OneNote](#)

QuickStart EN
July 2025

Card 9 - Click Game

[Link naar de Code](#)

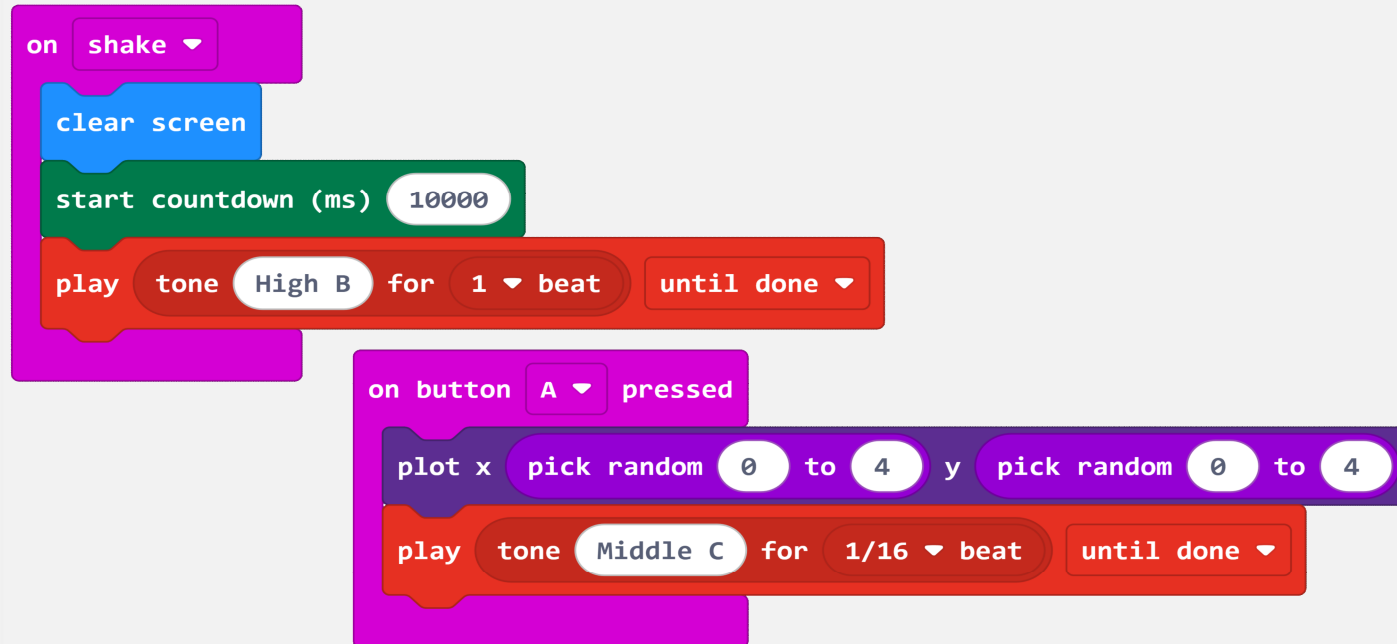

woensdag 30 juli 2025 22:37

WHAT?

Now you are going to make a simple klick game with sounds. Klick on button A and a LED light will go on and you hear a sound. When you fill all the LED's before the time is over you win. You can play this against each other. Or you can hack the game....

www.makecode.com

EXPLAIN CODE

- ☐ Drag from **Input**; on **shake** block
- ☐ Drag from **Basic**; **clear screen**
- ☐ Drag from **Games (Advanced blocks)**; start **countdown**
- ☐ Drag from **Music**; **play** tone and pick a **high** tone
- ☐ Drag from **Input**; on button **A** pressed
- ☐ Drag from **Led**; plot **x y** into the button **A** pressed
- ☐ Drag from **Math**; pick **random**, put this in random **x= 0** (change to **0 to 4**)
- ☐ **Copy** this **random** block and put it in the **y=0**
- ☐ Drag from **Music**; **play** tone and change to **1/16** beat

TIPS

- ☐ If you shake the micro:bit, he will clear the screen, start a countdown, when you hear the tone, you can start press A to play the game
- ☐ Play it against somebody else. Start at the same time
- ☐ **When the game is finished, you have to press the reset button at the back**

EXTRA

- ☐ How can you add more LED's when you press A?
- ☐ What will happen when you pick random 0-10?
- ☐ You can change the countdown, more time to play

microbit101 : Een doos met materialen om alle 101 projecten om te maken en een online omgeving met alle beschrijvingen.
copyright: Peter Heldens & Pauline Maas.

[Link to this online OneNote](#)

QuickStart EN
July 2025

Card 10 - Connect

woensdag 30 juli 2025 22:37

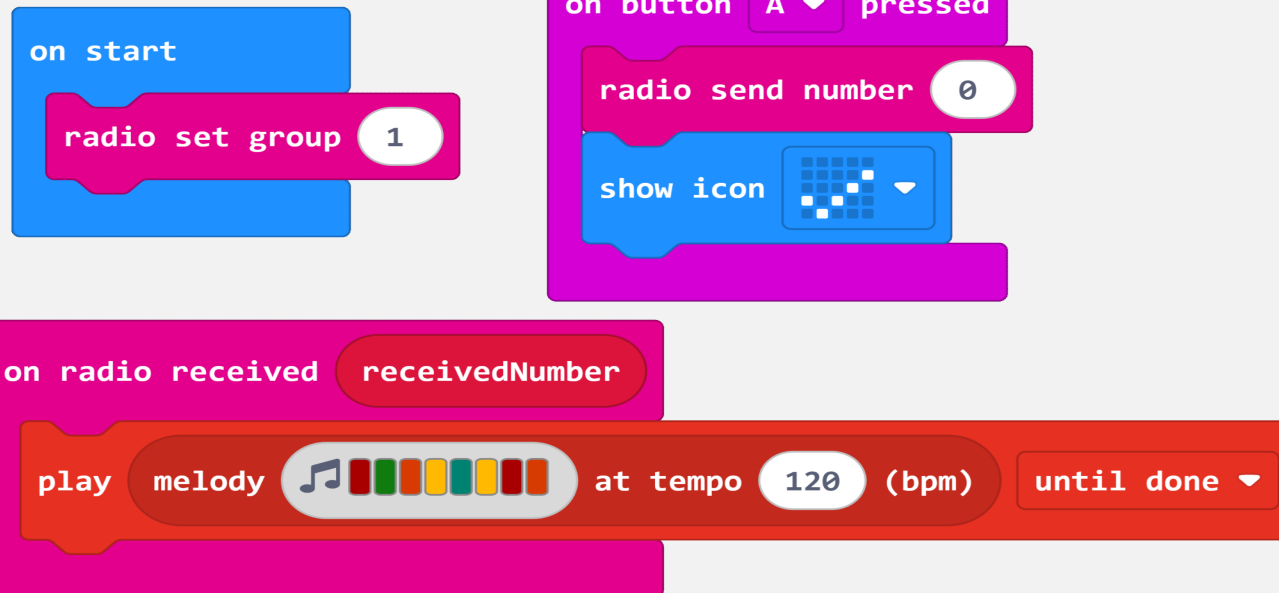

[Link naar de Code](#)

WHAT?

Now You learn how you can connect 2 micro:bits. They have to be on the same radio group. There are 256 different radio groups. The distance can be 60 meter.

www.makecode.com

EXPLAIN CODE

- ☐ Drag from **Radio**; **radio set group** into the on start block
- ☐ You can **choose** from **1 to 255** radio group, make **pairs** and **pick** your **number**
- ☐ Drag from **Input**; on button **A pressed**
- ☐ Drag from **Radio**; **radio send number 0** into the button A block
- ☐ Drag from **Basic**; **show icon** and pick a **V**
- ☐ Drag from **Radio**; on **radio received**
- ☐ Drag from **Music**; play **melody** into this block and pick a melody
- ☐ Put this code on 2 micro:bits, and connect

TIPS

- ☐ Make pairs, and pick your radio channel (1 to 255)
- ☐ You can send more different numbers to control for instance a car with a micro:bit in there.

EXTRA

- ☐ Change a button
- ☐ Send something by shake the other micro:bit
- ☐ Can you now hack the game (Card 9)?

microbit101 : Een doos met materialen om alle 101 projecten om te maken en een online omgeving met alle beschrijvingen.
copyright: Peter Heldens & Pauline Maas.

[Link to this online OneNote](#)

Card 11 - Secret Code

woensdag 30 juli 2025 22:37

[Link naar de Code](#)

WHAT?

As you saw in Card 12, you can connect micro:bits and send a number. You can also send a text, then you can send a secret code to each other.

www.makecode.com

on start

radio set group 1

on radio received receivedString

show string receivedString

on button A pressed

radio send string "YES"

on button B pressed

radio send string "NO"

EXPLAIN CODE

- ☐ Drag from **Radio**; **radio set group** into the on start block
- ☐ You can **choose** from **1** to **255** radio group, make **pairs** and **pick** your **number**
- ☐ Drag from **Input**; on button **A pressed**
- ☐ Drag from **Radio**; **radio send string** and change it into **YES**
- ☐ **Copy** on button **A pressed**, **Paste** it
- ☐ Change it on button **B pressed** and the string in **NO**
- ☐ Drag from **Radio**; on **radio received received string**
- ☐ Drag from **Basic**; **show string** into it, drag **ReceivedString** into "hello"
- ☐ **Put this code on 2 micro:bits, and connect**

TIPS

- ☐ Make pairs, and pick your radio channel (1 to 255)
- ☐ Now you can send secret message to each other

EXTRA

- ☐ What other words can you send?
- ☐ Try how far away you can stand
- ☐ Can you connect more micro:bits on the same group?

microbit101 : Een doos met materialen om alle 101 projecten om te maken en een online omgeving met alle beschrijvingen.

[Link to this online OneNote](#)

QuickStart EN
July 2025

Card 12- Bom

[Link naar de Code](#)

woensdag 30 juli 2025 22:37

WHAT?

Do you know the game "Hot Potato" with a time "bom" in your box. You have to hand it to the other in a circle when the "bom" explodes you loose.

www.makecode.com

EXPLAIN CODE

- ☐ Drag from **Input**; on shake
- ☐ Drag from **Basic**; show string and change it into "3 2 1"
- ☐ Go to **Variables**; make a variable time
- ☐ Drag from **Variables**; set time under show string
- ☐ Drag from **Math**; pick random and change it into 5 to 20
- ☐ Drag from **Loops**; While do
- ☐ Drag from **Logic**; 0 > 0 into the while do
- ☐ Drag from **Variable**; time into the first 0
- ☐ Drag from **Music**; play tone in the while do and change the beat to 1/4
- ☐ Drag from **Variables**; change time and change it to -1
- ☐ Drag from **Basic**; pause 1000
- ☐ Drag from **Music**; play giggle (V2 music) and change it to sad

TIPS

- ☐ The block play sad, must be under while do, that is the music that comes when the bom explodes
- ☐ Can you change the pause also in random?
- ☐ Can the play tone change, when the bom almost explodes

EXTRA

- ☐ Make LED on the micro:bit, is the more exiting yes or no?
- ☐ What happens when you set the first random on 0?
- ☐ Why don't we use the game block, count down?
